Injuries & Return to Sport

If a player is injured while playing hockey during a CAHC event (practice, game, dry land, etc.), the family needs to inform the Coach, Team Manager and Club President and request an insurance form as soon as possible. This form needs to be completed by the family, signed by the Club President and submitted to USAH as soon as possible. More information regarding the USA Hockey insurance can be found at <http://www.usahockey.com/page/show/837177-claims-reporting>. The Club President is required to inform WAHA (President, Risk Manager, Age Director) of the injury as soon as possible by email.

Once the player is able to return from an injury hockey related or not

If a player has been off the ice due to injury (regardless of where the injury happened), the family is required to submit a medical release received from the player's physician indicating that the player is able to return to hockey activities to the Club President prior to taking the ice again. Once the medical release has been received, that release has to be sent to the WAHA President, Risk Manager, and respective Age Director prior to the skater returning to our program. This takes time. Do not expect your player to be able to return to the ice on the day the medical release is obtained.

Fee waivers for players rostered on a Travel team roster

From the policy manual...

"Players who are injured, or have an illness, that keeps them from participating may petition the CAHC Board for an adjustment of Travel Tournament team fees. The petition must be presented to the CAHC Board within 30 days of the injury or illness. A letter and/or order from a physician must accompany the petition and a medical release must be submitted to the Board prior to the player actively returning and participating in the program. Decisions will be made on a case-by-case basis, and the decision of the CAHC Board will be final."
